VISION

To create communities in New Hampshire that advance culture, policies and services which support older adults and their families, providing a wide range of choices that advance health, independence and dignity.

A COLLECTIVE APPROACH TO:

Change the conversation
about aging across all sectors
of the community.

Change public policy to
promote a strong, stable
infrastructure for aging.

Change practice across public
and private sectors to improve
care and support for older
adults, their families and their
communities.
