

ADVOCACY PRIORITIES

The NH Alliance for Healthy Aging is a statewide coalition of stakeholders focused on the health and well-being of older adults in NH, working to promote a shared vision to create communities that advance culture, policies and services that support older adults. In 2021, we are working towards the development and implementation of a balanced long-term care system that would ensure access to high-quality supports and services, as well as advocating for legislation that supports a healthy state budget.
